Graduate student with a solid foundation in front-end development, seeking an immediate position as a Front-End Developer/Web Developer. Adept in HTML, CSS, JavaScript and proficient in leveraging these skills to create responsive and user-friendly web applications. Eager to contribute to a dynamic team and grow professionally in a challenging environment.

PROJECTS

Evently (Tech Events Management)

Platform: ReactJS, NextJS, NodeJS, Clerk, Typescript, MongoDB.

- Evently is a special tool for managing tech events. It helps people plan and organize events like conferences or workshops focused on technology. With Evently, you can easily set up event schedules, send out invitations, and keep track of who's coming. It's like having a personal assistant for your tech events, making everything run smoothly from start to finish. Whether you're hosting a small meetup or a big conference, Evently is there to help you make it a success.

Portfolio: I am Developed a standalone personal portfolio. Using HTML, CSS.

EXPERIENCE

PPCRC (Pralhad P. Chhabria Research Center, Pune)   **2 Months of Internship**

- During my time at PPCRC, I learned about building websites using React, Node.js, and MUI components. It was a hands-on experience where I got to work on making web pages look nice and work well. I worked with a team of experienced people who taught me how to solve problems and make things better. This internship helped me get better at making websites and working with others.

TECHNICAL SKILLS

Languages: C, C++ Language, JAVA
Web Technologies: HTML, CSS, JavaScript
Database: SQL (Structured Query Language)
